This presentation contains “forward-looking statements” within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, as amended, based on Semtech Corporation’s (the “Company’s”) current expectations, estimates and projections about its operations, industry, financial condition, performance, results of operations, and liquidity. Forward-looking statements are statements other than historical information or statements of current condition and relate to matters such as future financial and operational performance, the anticipated impact of specific items on future earnings, and the Company’s plans, objectives and expectations. Forward-looking statements involve known and unknown risks and uncertainties that could cause actual results and events to differ materially from those projected. Potential factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, the factors identified under the heading “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2021, the Company’s Quarterly Reports on Form 10-Q, in other filings with the Securities and Exchange Commission, and in material incorporated therein by reference. Investors are cautioned not to place undue reliance on any forward-looking information contained herein, which reflect management’s analysis only as of the date hereof. Except as required by law, the Company assumes no obligation to publicly release the results of any update or revision to any forward-looking statement that may be made to reflect new information, events or circumstances after the date hereof or to reflect the occurrence of unanticipated or future events, or otherwise.
Semtech’s Vision

To be the global leader in *analog, mixed signal* platforms and advanced algorithms that enable *architectural* and *performance differentiation*

- Achieve leadership positions in our target product segments
- Deliver revenue growth exceeding the high performance analog sector
- Attain the high end of Semtech’s stated target operating model
Our Strategic Advantages

**HIGH PERFORMANCE**
Analog/Mixed Signal Design
1. Circuit Innovation
2. Package Innovation
3. Patents
4. Partnerships

**ARCHITECTURAL DISRUPTION**
Through Systems Knowhow
1. Disrupt Systems
2. Push Technology Envelope
3. Application-Specific Standard Products

**ALGORITHM DESIGN**
Interface to Analog
1. Flexible Architectures
2. Applications Knowledge
3. Customer Partnerships
4. Disrupt Markets
Three Megatrends Driving Growth Opportunities

- Smarter Planet: The Internet of Things
- Greater Mobility: Smartphones & Wearables
- Higher Bandwidth: Hyperscale and Cloud Data Centers
Key Platforms Expected to Drive SAM Growth

Balanced Growth Story With Significant Upside
GAAP – Non GAAP Reconciliation Tables
Use of Non-GAAP Financial Information

In this presentation references are made to certain financial information calculated on a basis other than in accordance with accounting principles generally accepted in the United States (GAAP). These non-GAAP measures are provided as additional insight into on-going financial performance and are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation of these non-GAAP financial measures to the most comparable GAAP measures is provided at the end of this presentation.

This presentation also contains market statistics and industry data that are subject to uncertainty and are not necessarily reflective of market conditions. Although Semtech believes that these statistics and data are reasonable, they have been derived from third party sources and have not been independently verified by Semtech.

As noted in its fiscal year 2019 quarterly earnings releases, the Company will no longer adjust prior-period non-GAAP performance metrics of net sales and gross margin to exclude the cost of the Comcast Warrant as the Comcast Warrant fully vested in the first quarter of fiscal year 2019. Accordingly, the Company’s non-GAAP performance previously reported in prior fiscal periods for fiscal year 2018 and fiscal year 2019 will not be comparable to the previous periods. The Company in previous periods had excluded the recognized cost of the Comcast Warrant from non-GAAP net sales and non-GAAP gross margins because the cost related to a non-routine, non-cash equity award that was provided to Comcast as an incentive to deploy a network based on technology developed by the Company and because the Comcast Warrant would not have had an ongoing impact on revenues in future periods.

Semtech, the Semtech logo, and LoRa are registered trademarks or service marks, and LoRa Cloud is a trademark or service mark of Semtech Corporation or its affiliates. All other trademarks and trade names mentioned may be marks and names of their respective companies.

Actual results may vary and could be material. Nothing in this presentation should be represented that it will be achieved and the Company undertakes no duty to update its goals or targets.
