Unless the context otherwise requires, the use of the terms "Semtech," "the Company," "we," "us" and "our" in this Quarterly Report on Form 10-Q refers to Semtech Corporation and its consolidated subsidiaries. This Quarterly Report on Form 10-Q may contain references to the Company's trademarks and to trademarks belonging to other entities. Solely for convenience, trademarks and trade names referred to in this Quarterly Report on Form 10-Q, including logos, artwork and other visual displays, may appear without the ® or ™ symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the rights of the applicable licensor to these trademarks and trade names. We do not intend our use or display of other companies' trade names or trademarks to imply a relationship with, or endorsement or sponsorship of us by, any other company.

*Special Note Regarding Forward-Looking and Cautionary Statements*

*This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, as amended, based on our current expectations, estimates and projections about our operations, industry, financial condition, performance, results of operations, and liquidity. Forward-looking statements are statements other than historical information or statements of current condition and relate to matters such as future financial performance, future operational performance, the anticipated impact of specific items on future earnings, and our plans, objectives and expectations. Statements containing words such as "may," "believe," "anticipate," "expect," "intend," "plan," "project," "estimate," "should," "will," "designed to," "projections," or "business outlook," or other similar expressions constitute forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties that could cause actual results and events to differ materially from those projected. Potential factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to: the uncertainty surrounding the impact and duration of the COVID-19 pandemic on global economic conditions and on the Company's business and results of operations; export restrictions and laws affecting the Company's trade and investments including with respect to Huawei and certain of its affiliates, and tariffs or the occurrence of trade wars; competitive changes in the marketplace including, but not limited to, the pace of growth or adoption rates of applicable products or technologies; downturns in the business cycle; decreased average selling prices of the Company's products; the Company's reliance on a limited number of suppliers and subcontractors for components and materials; changes in projected or anticipated end-user markets; the Company's ability to forecast its effective tax rates due to changing income in higher or lower tax jurisdictions and other factors that contribute to the volatility of the Company's effective tax rates and impact anticipated tax benefits; and the Company's ability to forecast and achieve anticipated net sales and earnings estimates in light of periodic economic uncertainty, to include impacts arising from Asian, European, and global economic dynamics. Additionally, forward-looking statements should be considered in conjunction with the cautionary statements contained in this Quarterly Report on Form 10-Q, including, without limitation, information under the captions "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" and additional factors that accompany the related forward-looking statements in this Quarterly Report on Form 10-Q, in our Annual Report on Form 10-K for the fiscal year ended January 26, 2020 and Quarterly Report on Form 10-Q for the quarter ended July 26, 2020 including, without limitation, information under the caption "Risk Factors," in our other filings with the U.S. Securities and Exchange Commission ("SEC"), and in material incorporated herein and therein by reference. In light of the significant risks and uncertainties inherent in the forward-looking information included herein that may cause actual performance and results to differ materially from those predicted, any such forward-looking information should not be regarded as representations or guarantees by the Company of future performance or results, or that its objectives or plans will be achieved, or that any of its operating expectations or financial forecasts will be realized. Reported results should not be considered an indication of future performance. Investors are cautioned not to place undue reliance on any forward-looking information contained herein, which reflect management's analysis only as of the date hereof. Except as required by law, the Company assumes no obligation to publicly release the results of any update or revision to any forward-looking statement that may be made to reflect new information, events or circumstances after the date hereof or to reflect the occurrence of unanticipated or future events, or otherwise.*

*The factors noted above, and the risks included in our SEC filings, may be increased or intensified as a result of the COVID-19 pandemic. The extent to which the COVID-19 pandemic ultimately impacts our business, results of operations and financial condition will depend on future developments, which are highly uncertain and cannot be predicted. In addition to regarding forward-looking statements with caution, you should consider that the preparation of the consolidated financial statements requires us to draw conclusions and make interpretations, judgments, assumptions and estimates with respect to certain factual, legal, and accounting matters. Our financial statements might have been materially impacted if we had reached different conclusions or made different interpretations, judgments, assumptions or estimates.*

Cash and cash equivalents at beginning of period	293,324	312,120
Cash and cash equivalents at end of period	\$ 262,271	\$ 283,057
<b>Supplemental disclosure of cash flow information:</b>		
Interest paid	\$ 4,976	\$ 6,641
Income taxes paid	\$ 8,086	\$ 8,531
<b>Non-cash investing and financing activities:</b>		
Accounts payable related to capital expenditures	\$ 3,419	\$ 1,157

*The accompanying notes are an integral part of these interim unaudited condensed consolidated financial statements.*

SEMTECH CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

**Note 1: Organization and Basis of Presentation**

Nature of Business

Semtech Corporation (together with its consolidated subsidiaries, the "Company" or "Semtech") is a leading global supplier of high performance analog and mixed-signal semiconductors and advanced algorithms. The end customers for the Company's products are primarily original equipment manufacturers ("OEMs") that produce and sell electronics.

Fiscal Year

The Company reports results on the basis of 52 and 53-week periods and ends its fiscal year on the last Sunday in January. The other quarters generally end on the last Sunday of April, July and October. All quarters consist of 13 weeks except for one 14-week period in the fourth quarter of 53-week years. The third quarters of fiscal years 2021 and 2020 each consisted of 13 weeks.

Principles of Consolidation

The accompanying interim unaudited condensed consolidated financial statements have been prepared by the Company, in accordance with accounting principles generally accepted in the United States ("GAAP") and on the same basis as the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended January 26, 2020 ("Annual Report"). The Company's interim unaudited condensed consolidated statements of income are referred to herein as the "Statements of Income." The Company's interim unaudited condensed consolidated balance sheets are referred to herein as the "Balance Sheets" and interim unaudited condensed consolidated statements of cash flows as the "Statements of Cash Flows." In the opinion of the Company, these interim unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly, in all material respects, the financial position of the Company for the interim periods presented. All intercompany balances have been eliminated. Because the interim unaudited condensed consolidated financial statements do not include all of the information and notes required by GAAP for a complete set of consolidated financial statements, they should be read in conjunction with the audited consolidated financial statements and notes included in the Company's Annual Report. The results reported in these interim unaudited condensed consolidated financial statements should not be regarded as indicative of results that may be expected for any subsequent period or for the entire year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Correction of Immaterial Errors

During the fourth quarter of fiscal year 2020, management identified certain immaterial errors related to share-based compensation expense of market-condition awards granted during fiscal years 2018, 2019 and 2020. The errors resulted from adjustments to the grant date fair value of the market-condition awards that were incorrectly accounted for as performance-based awards. The Company has corrected its consolidated financial statements for these errors for the impacted prior periods presented in this Quarterly Report on Form 10-Q. Refer to Note 16 for a discussion of the Company's assessment of the errors and impact on its consolidated financial statements.

Recently Adopted Accounting Guidance

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-13, Financial Instruments—Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments. This guidance requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. It also requires credit losses on available-for-sale debt securities to be presented as an allowance, rather than reducing the carrying amount. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, and for interim periods within those fiscal years. The Company adopted ASU 2016-13 in the first quarter of fiscal year 2021, resulting in a \$0.3 million reduction to beginning retained earnings, net of tax, and the recognition of a \$0.4 million credit loss reserve.

In March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, which provides temporary optional guidance to ease potential accounting impacts associated with transitioning away from reference rates that are expected to be discontinued, such as interbank offered rates and London Interbank Offered Rate ("LIBOR"). The guidance includes practical expedients for contract modifications due

to reference rate reform. Generally, contract modifications related to reference rate reform may be considered an event that does not require remeasurement or reassessment of a previous accounting determination at the modification date. This guidance is effective immediately and is only available through December 31, 2022. The Company adopted this guidance in the third quarter of fiscal year 2021 and there was no impact on its consolidated financial statements.

Accounting Guidance Issued, but not yet Adopted as of October 25, 2020

In December 2019, the FASB issued ASU No. 2019-12, Simplifying the Accounting for Income Taxes, which modifies Accounting Standards Codification ("ASC") 740 to simplify the accounting for income taxes. This guidance impacts the accounting for hybrid tax regimes, the tax basis step-up in goodwill obtained in a transaction that is not a business combination, separate financial statements of legal entities not subject to tax, the intraperiod tax allocation exception to the incremental approach, ownership changes in investments from a subsidiary to an equity method investment and vice versa, interim period accounting for enacted changes in tax law and the year-to-date loss limitation in interim period tax accounting. This guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within these fiscal years, with early adoption permitted. The Company will adopt this guidance in the first quarter of fiscal year 2022 and is still evaluating the impact on its consolidated financial statements.

**Note 2: Earnings per Share**

The computation of basic and diluted earnings per common share was as follows:

(in thousands, except per share data)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Net income attributable to common stockholders	\$ 18,487	\$ 13,997	\$ 44,247	\$ 28,937
Weighted-average common shares outstanding—basic	65,136	66,387	65,270	66,337
Dilutive effect of share-based compensation	831	931	780	1,293
Weighted-average common shares outstanding—diluted	<u>65,967</u>	<u>67,318</u>	<u>66,050</u>	<u>67,630</u>
Basic earnings per common share	\$ 0.28	\$ 0.21	\$ 0.68	\$ 0.44
Diluted earnings per common share	\$ 0.28	\$ 0.21	\$ 0.67	\$ 0.43
Anti-dilutive shares not included in the above calculations	523	237	274	223

Diluted earnings per common share incorporates the incremental shares issuable, calculated using the treasury stock method, upon the assumed exercise of non-qualified stock options and the vesting of restricted stock units and market-condition restricted stock unit awards if certain conditions have been met, but excludes such incremental shares that would have an anti-dilutive effect.

### Note 3: Share-Based Compensation

#### Financial Statement Effects and Presentation

Pre-tax share-based compensation was included in the Statements of Income as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Cost of sales	\$ 654	\$ 552	\$ 1,734	\$ 1,381
Selling, general and administrative	9,404	9,323	24,864	27,794
Product development and engineering	3,480	3,180	9,505	8,283
Total share-based compensation	<u>\$ 13,538</u>	<u>\$ 13,055</u>	<u>\$ 36,103</u>	<u>\$ 37,458</u>

#### Total Stockholder Return ("TSR") Market-Condition Restricted Stock Units

The Company grants TSR market-condition restricted stock units (the "TSR Awards") to certain executives of the Company. The TSR Awards have a pre-defined market-condition, which determines the number of shares that ultimately vest, as well as a service condition. The TSR Awards are valued as of the measurement date using a Monte Carlo simulation which takes into consideration the possible outcomes pertaining to the TSR market condition and expense is recognized on a straight line basis over the vesting periods and is adjusted for any actual forfeitures.

In the nine months ended October 25, 2020, the Company granted 137,224 TSR Awards, which are accounted for as equity awards. The market condition is determined based upon the Company's TSR benchmarked against the TSR of the S&P SPDR Semiconductor ETF (NYSE:XSD) over one, two and three year periods (one-third of the awards vesting each performance period). Generally, the fiscal year 2021 award recipients must be employed for the entire performance period and be an active employee at the time of vesting of the awards. The grant-date fair value per unit of the awards granted in the nine months ended October 25, 2020 for each one, two and three year performance period was \$29.04, \$32.94 and \$35.99, respectively.

During the fourth quarter of fiscal year 2020, management identified certain immaterial errors related to share-based compensation expense of market-condition awards granted during fiscal years 2018, 2019 and 2020. The impact of the errors was not material and the Company has corrected the consolidated financial statements and all other financial information presented in this Quarterly Report on Form 10-Q. Refer to Note 16 for a discussion of the Company's assessment of the errors and impact on its consolidated financial statements.

#### Restricted Stock Units, Employees

The Company grants restricted stock units to certain employees, which are expected to be settled with shares of the Company's common stock. The grant date for these awards is equal to the measurement date. These awards are valued as of the measurement date, based on the fair value of the Company's common stock at the grant date, and recognized as share-based compensation expense over the requisite vesting period (typically 4 years). In the nine months ended October 25, 2020, the Company granted 822,162 restricted stock units to employees.

#### Restricted Stock Units, Non-Employee Directors

The Company maintains a compensation program pursuant to which restricted stock units are granted to the Company's directors that are not employed by the Company or any of its subsidiaries. Under the Company's director compensation program, a portion of the restricted stock units granted under the program will be settled in cash and a portion will be settled in shares of the Company's common stock. Restricted stock units awarded under the program are scheduled to vest on the earlier of (i) one year after the grant date or (ii) the day immediately preceding the annual meeting of stockholders in the year following the grant. The portion of a restricted stock unit award under the program that is to be settled in cash will, subject to vesting, be settled when the director who received the award separates from the board of directors. The portion of a restricted stock unit award under the program that is to be settled in shares of the Company's common stock will, subject to vesting, be settled promptly following vesting. In the nine months ended October 25, 2020, the Company granted 14,742 restricted stock units that settle in cash and 12,898 restricted stock units that settle in shares.

**Note 4: Available-for-sale securities**

The following table summarizes the values of the Company's available-for-sale securities:

(in thousands)	October 25, 2020			January 26, 2020		
	Fair Value	Amortized Cost	Gross Unrealized Gain/(Loss)	Fair Value	Amortized Cost	Gross Unrealized Gain/(Loss)
Convertible debt	\$ 11,233	\$ 11,968	\$ (735)	\$ 10,700	\$ 8,715	\$ 1,985
Total available-for-sale securities	\$ 11,233	\$ 11,968	\$ (735)	\$ 10,700	\$ 8,715	\$ 1,985

The following table summarizes the maturities of the Company's available-for-sale securities:

(in thousands)	October 25, 2020		January 26, 2020	
	Fair Value	Amortized Cost	Fair Value	Amortized Cost
Within 1 year	\$ 9,829	\$ 9,920	\$ 10,200	\$ 8,215
After 1 year through 5 years	1,404	2,048	500	500
Total available-for-sale securities	\$ 11,233	\$ 11,968	\$ 10,700	\$ 8,715

The Company's available-for-sale securities consist of investments in convertible debt instruments issued by privately-held companies. The available-for-sale securities with maturities within one year were included in "Other current assets" and with maturities greater than one year were included in "Other assets" in the Balance Sheets.

**Note 5: Fair Value Measurements**

The following fair value hierarchy is applied for disclosure of the inputs used to measure fair value and prioritizes the inputs into three levels as follows:

*Level 1*—Quoted prices in active markets for identical assets or liabilities.

*Level 2*—Observable inputs other than Level 1 prices, such as quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the assets or liabilities, either directly or indirectly.

*Level 3*—Unobservable inputs based on the Company's own assumptions, requiring significant management judgment or estimation.

***Instruments Measured at Fair Value on a Recurring Basis***

Financial assets and liabilities measured and recorded at fair value on a recurring basis were presented in the Balance Sheets as follows:

(in thousands)	Fair Value as of October 25, 2020				Fair Value as of January 26, 2020			
	Total	(Level 1)	(Level 2)	(Level 3)	Total	(Level 1)	(Level 2)	(Level 3)
<b>Financial assets:</b>								
Convertible debt	\$ 11,233	\$ —	\$ —	\$ 11,233	\$ 10,700	\$ —	\$ —	\$ 10,700
Foreign currency forward contracts	377	—	377	—	—	—	—	—
<b>Total financial assets</b>	<b>\$ 11,610</b>	<b>\$ —</b>	<b>\$ 377</b>	<b>\$ 11,233</b>	<b>\$ 10,700</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 10,700</b>
<b>Financial liabilities:</b>								
Cycleo Earn-out	\$ —	\$ —	\$ —	\$ —	\$ 2,108	\$ —	\$ —	\$ 2,108
Interest rate swap agreement	1,854	—	1,854	—	—	—	—	—
<b>Total financial liabilities</b>	<b>\$ 1,854</b>	<b>\$ —</b>	<b>\$ 1,854</b>	<b>\$ —</b>	<b>\$ 2,108</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 2,108</b>

During the nine months ended October 25, 2020, the Company had no transfers of financial assets or liabilities between Level 1 or Level 2. During April 2020, the Cycleo Earn-out (as defined in Note 11) period ended, and the Cycleo Earn-out liability was transferred out of Level 3. Subsequent to the earn-out period, the Cycleo Earn-out liability is not measured at fair value on a recurring basis and instead, it is measured based on a combination of certain sales and operating income results achieved during the earn-out period (see Note 11). During the nine months ended October 25, 2020, there were no other transfers of financial assets or liabilities into or out of Level 3. As of October 25, 2020 and January 26, 2020, the Company had not elected the fair value option for any financial assets and liabilities for which such an election would have been permitted.

The following table presents a reconciliation of the changes in the earn-out liability categorized within Level 3 in the nine months ended October 25, 2020:

(in thousands)	
Balance at January 26, 2020	\$ 2,108
Changes in fair value of contingent earn-out obligations	(33)
Changes in fair value of non-contingent earn-out obligations	(117)
Transferred out of Level 3	(1,958)
<b>Balance at October 25, 2020</b>	<b>\$ —</b>

The convertible debt investments are valued utilizing a combination of estimates that are based on the estimated discounted cash flows associated with the debt and the fair value of the equity into which the debt may be converted, all of which are Level 3 inputs.

The following table presents a reconciliation of the changes in the convertible debt investments in the nine months ended October 25, 2020:

(in thousands)	
Balance at January 26, 2020	\$ 10,700
Additions	2,500
Increase in credit loss reserve	(2,719)
Interest accrued	752
<b>Balance at October 25, 2020</b>	<b>\$ 11,233</b>

The foreign currency forward contracts are valued using readily available foreign currency forward and interest rate curves (Level 2 inputs). The fair value of each contract is determined by comparing the contract rate to the forward rate and discounting to the present value. Contracts in a gain position are recorded in "Other current assets" in the Balance Sheets and the value of contracts in a loss position are recorded in "Accrued liabilities" in the Balance Sheets. See Note 15 for further discussion of the Company's derivative instruments.

The interest rate swap agreement is valued using readily available interest rate curves (Level 2 inputs). The fair value of the agreement is determined by comparing, for each settlement, the contract rate to the forward rate and discounting to the present value. Contracts in a gain position are recorded in "Other current assets" and "Other assets" in the Balance Sheets and the value of contracts in a loss position are recorded in "Accrued liabilities" and "Other long term liabilities" in the Balance Sheets. See Note 15 for further discussion of the Company's derivative instruments.

*Instruments Not Recorded at Fair Value on a Recurring Basis*

Some of the Company's financial instruments are not measured at fair value on a recurring basis, but are recorded at amounts that approximate fair value due to their liquid or short-term nature. Such financial assets and financial liabilities include: cash and cash equivalents including money market deposits, net receivables, certain other assets, accounts payable, accrued expenses, accrued personnel costs, and other current liabilities. The Company's long-term debt is recorded at cost, which approximates fair value as the long-term debt bears interest at a floating rate.

*Assets and Liabilities Recorded at Fair Value on a Non-Recurring Basis*

The Company reduces the carrying amounts of its goodwill, intangible assets, long-lived assets and non-marketable equity securities to fair value when held for sale or determined to be impaired.

*Investment Impairments and Credit Loss Reserves*

Upon the adoption of ASU 2016-13, the Company recorded expected credit loss reserves of \$0.4 million related to its held-to-maturity debt securities. During the three and nine months ended October 25, 2020, the Company increased its expected credit loss reserves by \$0.3 million and \$2.7 million, respectively, for its held-to-maturity debt securities and available-for-sale debt securities. These increases were, in-part, due to the impact of the COVID-19 pandemic on early-stage development companies. The total credit loss reserve for the Company's held-to-maturity debt securities and available-for-sale debt securities was \$3.2 million as of October 25, 2020. In addition, during the three and nine months ended October 25, 2020, the Company recorded zero and \$2.9 million, respectively, of impairments on its non-marketable equity securities as the Company determined that these investments were other than temporarily impaired. During the three and nine months ended October 27, 2019, there were no impairments on the Company's non-marketable equity securities, held-to-maturity debt investments, or available-for-sale debt securities.

**Note 6: Inventories**

Inventories, consisting of material, material overhead, labor, and manufacturing overhead, are stated at the lower of cost (first-in, first-out) or net realizable value and consisted of the following:

(in thousands)	October 25, 2020	January 26, 2020
Raw materials	\$ 3,054	\$ 2,223
Work in progress	55,439	50,640
Finished goods	19,874	20,147
Inventories	<u>\$ 78,367</u>	<u>\$ 73,010</u>

## Note 7: Goodwill and Intangible Assets

### Goodwill

The carrying amounts of goodwill by applicable reporting unit were as follows:

(in thousands)	Signal Integrity	Wireless and Sensing	Protection	Total
Balance at January 26, 2020	\$ 274,085	\$ 72,128	\$ 4,928	\$ 351,141
Balance at October 25, 2020	\$ 274,085	\$ 72,128	\$ 4,928	\$ 351,141

Goodwill is not amortized, but is tested for impairment at the reporting unit level using either a qualitative or quantitative assessment on an annual basis during the fourth quarter of each fiscal year, and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The recoverability of goodwill is measured at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair market value of the reporting unit. As of October 25, 2020, there was no indication of impairment of the Company's goodwill balances.

### Purchased Intangibles

The following table sets forth the Company's finite-lived intangible assets resulting from business acquisitions, which are amortized over their estimated useful lives:

(in thousands, except estimated useful life)	Estimated Useful Life	October 25, 2020			January 26, 2020		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Core technologies	3-8 years	\$ 43,300	\$ (29,946)	\$ 13,354	\$ 82,857	\$ (63,434)	\$ 19,423
Customer relationships	—	—	—	—	6,000	(5,411)	589
<b>Total finite-lived intangible assets</b>		<b>\$ 43,300</b>	<b>\$ (29,946)</b>	<b>\$ 13,354</b>	<b>\$ 88,857</b>	<b>\$ (68,845)</b>	<b>\$ 20,012</b>

Amortization expense of finite-lived intangible assets recorded in the Statements of Income for each period was as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Core technologies	\$ 1,798	\$ 3,337	\$ 6,069	\$ 10,971
Customer relationships	—	433	589	1,850
<b>Total amortization expense</b>	<b>\$ 1,798</b>	<b>\$ 3,770</b>	<b>\$ 6,658</b>	<b>\$ 12,821</b>

Future amortization expense of finite-lived intangible assets is expected as follows:

(in thousands)	
Fiscal Year Ending:	
Fiscal year 2021 (remaining three months)	\$ 1,608
Fiscal year 2022	4,942
Fiscal year 2023	4,002
Fiscal year 2024	1,676
Fiscal year 2025	288
Thereafter	838
<b>Total expected amortization expense</b>	<b>\$ 13,354</b>

## Note 8: Long-Term Debt

Long-term debt and the current period interest rates were as follows:

(in thousands, except percentages)	Balance as of	
	October 25, 2020	January 26, 2020
Revolving loans	\$ 185,000	\$ 197,000
Debt issuance costs	(1,925)	(2,257)
Total long-term debt, net of debt issuance costs	\$ 183,075	\$ 194,743
Effective interest rate <sup>(1)</sup>	1.87 %	2.95 %

<sup>(1)</sup> The revolving loans bear interest at a variable rate based on LIBOR or a Base Rate, at the Company's option, plus an applicable margin that varies based on the Company's consolidated leverage ratio. In the first quarter of fiscal year 2021, the Company entered into an interest rate swap agreement that fixed the interest on the first \$150.0 million of debt outstanding under the revolving loans at 1.9775%. As of October 25, 2020, the effective interest rate is a weighted-average rate that represents interest on the first \$150.0 million of the debt outstanding at a fixed LIBOR rate of 0.7275% plus a margin of 1.25% (total fixed rate of 1.9775%), and the remainder of the debt outstanding at a variable rate based on the one-month LIBOR rate, which was 0.15% as of October 25, 2020, plus a margin of 1.25% (total variable rate of 1.40%). As of January 26, 2020, the interest rate was a variable rate based on the one-month LIBOR rate, which was 1.7% as of January 26, 2020, plus a margin of 1.25% (total variable rate of 2.95%).

On November 7, 2019, the Company, with certain of its domestic subsidiaries as guarantors, entered into an amended and restated credit agreement with the lenders party thereto and HSBC Bank USA, National Association, as administrative agent, swing line lender and letter of credit issuer in order to provide a more flexible borrowing structure by expanding the borrowing capacity of the revolving loans under the senior secured first lien credit facility (the "Credit Facility") to \$600.0 million, eliminating the term loans under the prior facility and extending the maturity to November 7, 2024. As of October 25, 2020, the Company had \$185.0 million outstanding under its Credit Facility, which had \$415.0 million of undrawn borrowing capacity, and the Company was in compliance with the financial covenants required under the Credit Facility.

Interest expense was comprised of the following components for the periods presented:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Contractual interest <sup>(1)</sup>	\$ 888	\$ 2,064	\$ 3,457	\$ 6,881
Amortization of debt discount and issuance costs	120	119	362	366
Total interest expense	\$ 1,008	\$ 2,183	\$ 3,819	\$ 7,247

<sup>(1)</sup> Contractual interest represents the interest on the Company's outstanding debt after giving effect to the interest rate swap agreement.

As of October 25, 2020, there were no amounts outstanding under the letters of credit, swing line loans and alternative currency sub-facilities.

**Note 9: Income Taxes**

The Company's effective tax rate differs from the statutory federal income tax rate of 21% primarily due to the regional mix of income, return-to-provision adjustments, excess tax benefits from share-based compensation, withholding taxes on certain foreign earnings and research and development tax credits.

The Company uses a two-step approach to recognize and measure uncertain tax positions ("UTP"). The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained in audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement.

A reconciliation of the beginning and ending amount of gross unrecognized tax benefits (before the federal impact of state items) is as follows:

(in thousands)	
Balance at January 26, 2020	\$ 25,466
Additions/(decreases) based on tax positions related to the current fiscal year	278
Additions/(decreases) based on tax positions related to the prior fiscal years	1,240
Balance at October 25, 2020	<u>\$ 26,984</u>

Included in the balance of gross unrecognized tax benefits at October 25, 2020 and January 26, 2020 are \$9.9 million and \$8.6 million, respectively, of net tax benefits (after the federal impact of state items), that, if recognized, would impact the effective tax rate, prior to consideration of any required valuation allowance.

The liability for UTP is reflected in the Balance Sheets as follows:

(in thousands)		October 25, 2020	January 26, 2020
Deferred tax assets - non-current	\$	15,736	\$ 15,575
Other long-term liabilities		9,903	8,555
Total accrued taxes	\$	<u>25,639</u>	<u>\$ 24,130</u>

The Company's policy is to include net interest and penalties related to unrecognized tax benefits in the "Provision for income taxes" in the Statements of Income.

Tax years prior to 2013 (the Company's fiscal year 2014) are generally not subject to examination by the U.S. Internal Revenue Service except for items involving tax attributes that have been carried forward to tax years whose statute of limitations remains open. For state returns, the Company is generally not subject to income tax examinations for calendar years prior to 2012 (the Company's fiscal year 2013). The Company has a significant tax presence in Switzerland for which Swiss tax filings have been examined through fiscal year 2019. The Company is also subject to routine examinations by various foreign tax jurisdictions in which it operates. The Company believes that adequate provisions have been made for any adjustments that may result from tax examinations. However, the outcome of tax audits cannot be predicted with certainty. If any issues addressed in the Company's tax audits are resolved in a manner not consistent with the Company's expectations, the Company could be required to adjust its provision for income taxes in the period such resolution occurs.

The Company's regional income (loss) from continuing operations before taxes and equity in net gains of equity method investments was as follows:

(in thousands)		Three Months Ended		Nine Months Ended	
		October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Domestic	\$	(2,054)	\$ (1,845)	\$ (19,065)	\$ (20,907)
Foreign		21,957	18,183	65,813	58,373
Total	\$	<u>19,903</u>	<u>\$ 16,338</u>	<u>\$ 46,748</u>	<u>\$ 37,466</u>

**Note 10: Leases**

The Company has operating leases for real estate, vehicles, and office equipment. Real estate leases are used to secure office space for the Company's administrative, engineering, production support and manufacturing activities. The Company's leases have remaining lease terms of up to approximately 10 years, some of which include options to extend the leases for up to 5 years, and some of which include options to terminate the leases within 1 year.

The components of lease expense were as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Operating lease cost	\$ 1,178	\$ 1,183	\$ 3,533	\$ 3,610
Short-term lease cost	—	81	—	242
Sublease income	(35)	(33)	(102)	(98)
Total lease cost	<u>\$ 1,143</u>	<u>\$ 1,231</u>	<u>\$ 3,431</u>	<u>\$ 3,754</u>

Supplemental cash flow information related to leases was as follows:

(in thousands)	Nine Months Ended	
	October 25, 2020	October 27, 2019
Cash paid for amounts included in the measurement of lease liabilities	\$ 3,546	\$ 3,874
Right-of-use assets obtained in exchange for new operating lease liabilities	\$ 4,119	\$ 149

	October 25, 2020
Weighted-average remaining lease term—operating leases	4.53 years
Weighted-average discount rate on remaining lease payments—operating leases	6.8 %

Supplemental balance sheet information related to leases was as follows:

(in thousands)	Balance as of	
	October 25, 2020	January 26, 2020
Operating lease right-of-use assets in "Other assets"	\$ 12,159	\$ 10,958
Operating lease liabilities in "Accrued liabilities"	\$ 3,643	\$ 3,273
Operating lease liabilities in "Other long-term liabilities"	9,114	8,185
Total operating lease liabilities	<u>\$ 12,757</u>	<u>\$ 11,458</u>

Maturities of lease liabilities as of October 25, 2020 are as follows:

(in thousands)	
Fiscal Year Ending:	
2021 (remaining three months)	\$ 1,241
2022	4,078
2023	2,639
2024	2,231
2025	2,103
Thereafter	2,611
Total lease payments	14,903
Less: imputed interest	(2,146)
Total	<u>\$ 12,757</u>

As of October 25, 2020, we have entered into two additional operating leases with a total of \$4.5 million lease liabilities that have not been recorded on our consolidated financial statements because the leases had not commenced as of the end of the third quarter of fiscal year 2021. Subsequent to October 25, 2020, both leases have commenced and have lease terms of 10 years.

## Note 11: Commitments and Contingencies

In accordance with ASC 450-20, Loss Contingencies, the Company accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated. The Company also discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for its consolidated financial statements not to be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company evaluates, at least quarterly, developments in its legal matters that could affect the amount of liability that has been previously accrued, and makes adjustments as appropriate. Significant judgment is required to determine both probability and the estimated amount. The Company may be unable to estimate a possible loss or range of possible loss due to various reasons, including, among others: (i) if the damages sought are indeterminate; (ii) if the proceedings are in early stages, (iii) if there is uncertainty as to the outcome of pending appeals, motions or settlements, (iv) if there are significant factual issues to be determined or resolved, and (v) if there are novel or unsettled legal theories presented. In such instances, there is considerable uncertainty regarding the ultimate resolution of such matters, including a possible eventual loss, if any.

Because the outcomes of litigation and other legal matters are inherently unpredictable, the Company's evaluation of legal matters or proceedings often involves a series of complex assessments by management about future events and can rely heavily on estimates and assumptions. While the consequences of certain unresolved matters and proceedings are not presently determinable, and an estimate of the probable and reasonably possible loss or range of loss in excess of amounts accrued for such proceedings cannot be reasonably made, an adverse outcome from such proceedings could have a material adverse effect on the Company's earnings in any given reporting period. However, in the opinion of management, after consulting with legal counsel, any ultimate liability related to current outstanding claims and lawsuits, individually or in the aggregate, is not expected to have a material adverse effect on the Company's consolidated financial statements, as a whole. However, legal matters are inherently unpredictable and subject to significant uncertainties, some of which are beyond the Company's control.

As such, even though the Company intends to vigorously defend itself with respect to its legal matters, there can be no assurance that the final outcome of these matters will not materially and adversely affect the Company's business, financial condition, operating results, or cash flows.

From time to time, the Company is involved in various claims, litigation, and other legal actions that are normal to the nature of its business, including with respect to intellectual property, contract, product liability, employment, and environmental matters. In the opinion of management, after consulting with legal counsel, any ultimate liability related to current outstanding claims and lawsuits, individually or in the aggregate, is not expected to have a material adverse effect on the Company's consolidated financial statements, as a whole.

### Settlement

On August 1, 2018, the Company announced the settlement of a lawsuit filed against HiLight Semiconductor Limited and related individual defendants in accordance with which the Company was paid approximately \$9.0 million to cover damages for claims, costs and attorneys' fees. The Company recorded gains of \$8.0 million during fiscal year 2019 and \$1.0 million in the first quarter of fiscal year 2020 for recoveries related to this settlement. All recoveries were presented in "Selling, general and administrative" ("SG&A") expense in the Statements of Income in the respective periods in which the cash was received.

The Company's currently pending legal matters of note are discussed below:

### Environmental Matters

The Company vacated a former facility in Newbury Park, California in 2002, but continues to address groundwater and soil contamination at the site. The Company's efforts to address site conditions have been at the direction of the Los Angeles Regional Water Quality Control Board ("RWQCB"). In October 2013, an order was issued including a scope of proposed additional site work, monitoring, and remediation activities. The Company has been complying with RWQCB orders and direction, and continues to implement an approved remedial action plan addressing the soil, groundwater, and soil vapor at the site.

The Company has accrued liabilities where it is probable that a loss will be incurred and the cost or amount of loss can be reasonably estimated. Based on the latest determinations by the RWQCB and the most recent actions taken pursuant to the remedial action plan, the Company estimates the range of probable loss between \$6.4 million and \$8.0 million. To date, the Company has made \$5.2 million in payments towards the remedial action plan and, as of October 25, 2020, has a remaining accrual of \$1.2 million related to this matter. Given the uncertainties associated with environmental assessment and the remediation activities, the Company is unable to determine a best estimate within the range of loss. Therefore, the Company has recorded the minimum amount of probable loss. These estimates could change as a result of changes in planned remedial actions, further actions from the regulatory agency, remediation technology, and other factors.

### Indemnification

The Company has entered into agreements with its current and former executives and directors indemnifying them against certain liabilities incurred in connection with the performance of their duties. The Company's Certificate of Incorporation and Bylaws contain comparable indemnification obligations with respect to the Company's current directors and employees.

### Product Warranties

The Company's general warranty policy provides for repair or replacement of defective parts. In some cases, a refund of the purchase price is offered. In certain instances, the Company has agreed to other or additional warranty terms, including indemnification provisions.

The product warranty accrual reflects the Company's best estimate of probable liability under its product warranties. The Company accrues for known warranty issues if a loss is probable and can be reasonably estimated, and accrues for estimated incurred but unidentified issues based on historical experience. Historically, warranty expense and the related accrual has been immaterial to the Company's consolidated financial statements.

### Deferred Compensation

The Company maintains a deferred compensation plan for certain officers and key executives that allows participants to defer a portion of their compensation for future distribution at various times permitted by the plan. This plan provides for a discretionary Company match up to a defined portion of the employee's deferral, with any match subject to a vesting period.

The Company's liability for the deferred compensation plan is presented below:

(in thousands)	October 25, 2020	January 26, 2020
Accrued liabilities	\$ 5,353	\$ 1,365
Other long-term liabilities	36,279	35,243

Total deferred compensation liabilities under this plan	\$ 41,632	\$ 36,608
---	-----------	-----------

The Company has purchased whole life insurance on the lives of certain current deferred compensation plan participants. This Company-owned life insurance is held in a grantor trust and is intended to cover a majority of the Company's costs of the deferred compensation plan. The cash surrender value of the Company-owned life insurance was \$25.8 million and \$24.3 million as of October 25, 2020 and January 26, 2020, respectively, and is included in "Other assets" in the Balance Sheets.

*Earn-out Liability*

Pursuant to the terms of an amended earn-out arrangement ("Cycleo Earn-out") with the former shareholders of Cycleo SAS ("Cycleo Earn-out Beneficiaries"), which the Company acquired in March 2012, the Company must make payments based on the achievement of a combination of certain sales and operating income milestones over the period of April 27, 2015 to April 26, 2020. No payments have been made during the first nine months of fiscal year 2021 for the remaining earn-out milestone. Any payment for the earn-out is not expected to be material.

*Restructuring*

From time to time, the Company takes steps to realign the business to focus on high-growth areas, provide customer value and make the Company more efficient. As a result, the Company has re-aligned resources and infrastructure predominantly related to its wireless charging business, which resulted in restructuring expense of zero and \$2.1 million in the three and nine months ended October 27, 2019, respectively, which were included in SG&A expenses in the Statements of Income. The Company did not have any restructuring expense during the three and nine months ended October 25, 2020.

**Note 12: Concentration of Risk**

The following significant customers accounted for at least 10% of net sales in one or more of the periods indicated:

(percentage of net sales)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Trend-tek Technology Ltd. (and affiliates)	16 %	13 %	17 %	13 %
Frontek Technology Corporation (and affiliates)	16 %	12 %	14 %	11 %
CEAC International Limited	10 %	10 %	11 %	7 %
Arrow Electronics (and affiliates)	9 %	10 %	9 %	9 %
Premier Technical Sales Korea, Inc. (and affiliates) <sup>(1)</sup>	6 %	8 %	6 %	7 %
Samsung Electronics (and affiliates) <sup>(1)</sup>	3 %	4 %	2 %	5 %

<sup>(1)</sup> Premier is a distributor with a concentration of sales to Samsung. The above percentages represent the Company's estimate of the sales activity related to Samsung that is passing through this distributor.

The following table shows the customers that had an outstanding receivable balance that represented at least 10% of total net receivables as of one or more of the dates indicated:

(percentage of net receivables)	Balance as of	
	October 25, 2020	January 26, 2020
Trend-tek Technology Ltd (and affiliates)	16 %	13 %
CEAC International Limited	11 %	11 %
Frontek Technology Corporation (and affiliates)	10 %	11 %

**Outside Subcontractors and Suppliers**

The Company relies on a limited number of third-party subcontractors and suppliers for the production of silicon wafers, packaging and certain other tasks. Disruption or termination of supply sources or subcontractors, including due to the COVID-19 pandemic or natural disasters such as an earthquake or other causes, have delayed and could delay shipments and could have a material adverse effect on the Company. Although there are generally alternate sources for these materials and services, qualification of the alternate sources could cause delays sufficient to have a material adverse effect on the Company. Several of the Company's third-party subcontractors and suppliers, including third-party foundries that supply silicon wafers, are located in foreign countries, including China, Israel and South Korea. A significant amount of the Company's assembly and test operations are conducted by third-party contractors in China, Malaysia, Taiwan, Thailand, South Korea and the Philippines. During the three months ended October 25, 2020 and October 27, 2019, approximately 15% and 30%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in China, and approximately 4% and 10%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in Israel. During the nine months ended October 25, 2020 and October 27, 2019, approximately 18% and 23%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in China, and approximately 7% and 12%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in Israel. These percentages could be higher in future periods.

### Note 13: Segment Information

The Company's CEO functions as the chief operating decision maker ("CODM"). The CODM makes operating decisions and assesses performance based on the Company's major product lines, which represent its operating segments. The Company has three operating segments—Signal Integrity, Wireless and Sensing, and Protection—that have similar economic characteristics and have been aggregated into one reportable segment identified as the "Semiconductor Products Group."

The Company's assets are commingled among the three operating segments and the CODM does not use asset information in making operating decisions or assessing performance. Therefore, the Company has not included asset information by segment in the segment disclosures below.

Net sales by segment were as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Semiconductor Products Group	\$ 154,082	\$ 141,011	\$ 430,444	\$ 409,511
Total	\$ 154,082	\$ 141,011	\$ 430,444	\$ 409,511

The following table presents a reconciliation of operating income by segment to consolidated income before taxes. Historical amounts have been adjusted to conform to the current presentation:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Semiconductor Products Group	\$ 37,668	\$ 33,904	\$ 100,584	\$ 94,037
Operating income by segment	37,668	33,904	100,584	94,037
<i>Items to reconcile segment operating income to consolidated income before taxes:</i>				
Share-based compensation	13,538	13,055	36,103	37,458
Intangible amortization	1,798	3,770	6,658	12,821
Investment impairments and credit loss reserves	335	—	5,450	—
Changes in the fair value of contingent earn-out obligations	—	(152)	(33)	(2,313)
Restructuring and other reserves	—	—	502	2,711
Litigation cost, net of recoveries	558	205	809	930
Transaction and integration related	292	(851)	539	617
Interest expense	1,008	2,183	3,819	7,247
Non-operating expense (income), net	236	(644)	(11)	(2,900)
Income before taxes and equity in net gains of equity method investments	\$ 19,903	\$ 16,338	\$ 46,748	\$ 37,466

### Information by Product Line

The Company operates exclusively in the semiconductor industry and primarily within the analog and mixed-signal sector.

The table below provides net sales activity by product line on a comparative basis:

(in thousands, except percentages)	Three Months Ended				Nine Months Ended			
	October 25, 2020		October 27, 2019		October 25, 2020		October 27, 2019	
Signal Integrity	\$ 61,553	40 %	\$ 58,563	42 %	\$ 193,127	44 %	\$ 163,913	40 %
Wireless and Sensing	51,145	33 %	42,287	30 %	122,933	29 %	126,190	31 %
Protection	41,384	27 %	40,161	28 %	114,384	27 %	119,408	29 %
Total net sales	\$ 154,082	100 %	\$ 141,011	100 %	\$ 430,444	100 %	\$ 409,511	100 %

### Information by Sales Channel

(in thousands, except percentages)

	Three Months Ended				Nine Months Ended			
	October 25, 2020		October 27, 2019		October 25, 2020		October 27, 2019	
Distributor	\$ 125,610	82 %	\$ 107,383	76 %	\$ 346,103	80 %	\$ 287,642	70 %
Direct	28,472	18 %	33,628	24 %	84,341	20 %	121,869	30 %
Total net sales	<u>\$ 154,082</u>	<u>100 %</u>	<u>\$ 141,011</u>	<u>100 %</u>	<u>\$ 430,444</u>	<u>100 %</u>	<u>\$ 409,511</u>	<u>100 %</u>

Generally, the Company does not have long-term contracts with its distributors and most can terminate their agreement with little or no notice. For the third quarter of fiscal year 2021, the Company's largest distributors were based in Asia.

### Geographic Information

Net sales activity by geographic region was as follows:

(percentage of total net sales)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Asia-Pacific	80 %	75 %	80 %	76 %
North America	12 %	16 %	12 %	15 %
Europe	8 %	9 %	8 %	9 %
	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>

The Company attributes sales to a country based on the ship-to address. The table below summarizes sales activity to countries that represented greater than 10% of total net sales for at least one of the periods presented:

(percentage of total net sales)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
China (including Hong Kong)	58 %	50 %	59 %	52 %
United States	10 %	10 %	10 %	10 %

Although a large percentage of our products is shipped into the Asia-Pacific region, a significant number of the products produced by these customers and incorporating our semiconductor products are then sold outside this region.

**Note 14: Stock Repurchase Program**

The Company maintains a stock repurchase program that was initially approved by its Board of Directors in March 2008. The stock repurchase program does not have an expiration date and the Company's Board of Directors has authorized expansion of the program over the years. The following table summarizes activity under the program for the presented periods:

(in thousands, except number of shares)	Three Months Ended				Nine Months Ended			
	October 25, 2020		October 27, 2019		October 25, 2020		October 27, 2019	
	Shares	Amount Paid	Shares	Amount Paid	Shares	Price Paid	Shares	Price Paid
Shares repurchased under the stock repurchase program	439,921	\$ 24,046	477,262	\$ 22,526	1,527,834	\$ 66,433	925,743	\$ 42,636

On May 24, 2018, the Company's Board of Directors authorized the expansion of the stock repurchase program by \$250.0 million. As of October 25, 2020, the Company had repurchased \$404.2 million in shares of its common stock under the program since inception and the remaining authorization under the program was \$44.2 million. Under the program, the Company may repurchase its common stock at any time or from time to time, without prior notice, subject to market conditions and other considerations. The Company's repurchases may be made through Rule 10b5-1 and/or Rule 10b-18 or other trading plans, open market purchases, privately negotiated transactions, block purchases or other transactions. The Company intends to fund repurchases under the program from cash on hand. The Company has no obligation to repurchase any shares under the program and may suspend or discontinue it at any time.

## Note 15: Derivatives and Hedging Activities

The Company is exposed to certain risk arising from both its business operations and economic conditions and principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company, on a routine basis and in the normal course of business, experiences expenses denominated in Swiss Franc ("CHF"), Canadian Dollar ("CAD") and Great British Pound ("GBP"). Such expenses expose the Company to exchange rate fluctuations between these foreign currencies and the U.S. Dollar ("USD"). The Company occasionally uses derivative financial instruments, in the form of forward contracts, to mitigate a portion of the risk associated with adverse movements in these foreign currency exchange rates during a twelve-month window. Currency forward contracts involve fixing the exchange rate for delivery of a specified amount of foreign currency on a specified date.

The Company's accounting treatment for these instruments is based on whether or not the instruments are designated as a hedging instrument. The Company is currently applying hedge accounting to all foreign currency derivatives and has designated these hedges as cash flow hedges.

The Company's foreign exchange contracts had the following outstanding balances:

(in thousands, except number of instruments data)	Balance as of					
	October 25, 2020			January 26, 2020		
	Number of Instruments	Sell Notional Value	Buy Notional Value	Number of Instruments	Sell Notional Value	Buy Notional Value
<b>Foreign Exchange Contracts</b>						
Sell USD/Buy CAD Forward Contract	3	\$ 4,287	C\$ 6,000	—	\$ —	C\$ —
Sell USD/Buy GBP Forward Contract	3	\$ 2,255	£ 1,800	—	\$ —	£ —
<b>Total</b>	<b>6</b>			<b>—</b>		

These contracts have been designated as cash flows hedges and the unrealized gains or losses, net of tax, are recorded as a component of "Accumulated other comprehensive income or loss" ("AOCI") in the Balance Sheets. The effective portions of the cash flow hedges are recorded in AOCI until the hedged item is recognized in "SG&A expense" in the Statements of Income once the foreign exchange contract matures, offsetting the underlying hedged expenses. Any ineffective portions of the cash flow hedges are recorded in "Non-operating expense, net" in the Statements of Income.

In the first quarter of fiscal year 2021, the Company entered into an interest rate swap agreement with a three-year term to hedge the variability of interest payments on the first \$150.0 million of debt outstanding under the Company's Credit Facility. Interest payments on \$150.0 million of the Company's debt are now fixed at a rate of 1.9775%, based on the Company's current leverage ratio. The interest rate swap agreement has been designated as a cash flow hedge and unrealized gains or losses, net of income tax, are recorded as a component of AOCI in the Balance Sheets. As the various settlements are made on a monthly basis, the realized gain or loss on the settlements are recorded in "Interest expense" in the Statements of Income. The realized loss on the interest rate swap agreement was not material for the three and nine months ended October 25, 2020.

The fair values of the Company's derivative assets and liabilities that qualify as cash flow hedges in the Balance Sheets were as follows:

(in thousands)	Balance as of	
	October 25, 2020	January 26, 2020
Foreign currency forward contracts	\$ 377	\$ —
Total other current assets	\$ 377	\$ —
Interest rate swap agreement	\$ 813	\$ —
Total accrued liabilities	\$ 813	\$ —
Interest rate swap agreement	\$ 1,041	\$ —
Total other long-term liabilities	\$ 1,041	\$ —

**Note 16: Correction of Immaterial Errors in Prior Period Financial Statements**

During the fourth quarter of fiscal year 2020, management identified certain immaterial errors related to share-based compensation expense of market-condition awards granted during fiscal years 2018, 2019 and 2020. At the inception of these grants, the Company appropriately determined that the awards contained a market condition and that the effect of the market condition should be reflected in the grant date fair value of the awards, with the resulting compensation expense fixed at inception and recognized ratably over the requisite service period, regardless of when, if ever, the market condition is satisfied. The actual awards, however, were incorrectly accounted for as performance-based awards, whereby the number of shares expected to vest and corresponding compensation expense was adjusted on a quarterly basis. The Company assessed the materiality of the errors from a qualitative and quantitative perspective, and concluded that the impact of the errors is not material. Therefore, the correction of the errors did not require the amendment of the Company's previously filed Annual Reports on Form 10-K or its Quarterly Reports on Form 10-Q for the impacted periods. The Company has corrected its consolidated financial statements for these errors for the impacted prior periods presented in this Quarterly Report on Form 10-Q.

The impact of the corrections on the Company's Statements of Income and Statements of Comprehensive Income for the three and nine months ended October 27, 2019, are presented in the table below:

(in thousands, except per share data)	Three Months Ended October 27, 2019		Nine Months Ended October 27, 2019	
	As Reported	As Corrected	As Reported	As Corrected
Selling, general and administrative	\$ 33,795	\$ 37,777	\$ 112,047	\$ 120,074
Product development and engineering	\$ 26,670	\$ 26,976	\$ 79,322	\$ 80,012
Total operating costs and expenses	\$ 64,083	\$ 68,371	\$ 201,877	\$ 210,594
Operating income	\$ 22,165	\$ 17,877	\$ 50,530	\$ 41,813
Income before taxes and equity in net gains of equity method investments	\$ 20,626	\$ 16,338	\$ 46,183	\$ 37,466
Provision for income taxes	\$ 3,379	\$ 2,693	\$ 10,033	\$ 8,638
Net income before equity in net gains of equity method investments	\$ 17,247	\$ 13,645	\$ 36,150	\$ 28,828
Net income	\$ 17,599	\$ 13,997	\$ 36,259	\$ 28,937
Earnings per share:				
Basic	\$ 0.27	\$ 0.21	\$ 0.55	\$ 0.44
Diluted	\$ 0.26	\$ 0.21	\$ 0.54	\$ 0.43
Comprehensive income	\$ 18,025	\$ 14,423	\$ 36,551	\$ 29,229

There was no impact to the Company's Balance Sheets or to total operating cash flows in the Statements of Cash Flows for any periods presented in this Quarterly Report on Form 10-Q.

## ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with our interim unaudited condensed consolidated financial statements and the accompanying notes included in Part I, Item 1 of this Quarterly Report on Form 10-Q (this "Quarterly Report"), and the "Special Note Regarding Forward-Looking and Cautionary Statements" in this Quarterly Report.

### Overview

Semtech Corporation (together with its consolidated subsidiaries, the "Company", "we", "our", or "us") designs, develops, manufactures and markets high-performance analog and mixed signal semiconductors and advanced algorithms. We operate and account for results in one reportable segment through three product lines: Signal Integrity, Wireless and Sensing, and Protection.

**Signal Integrity.** We design, develop and market a portfolio of optical data communications and video transport products used in a wide variety of enterprise computing, communications, and industrial applications. Our comprehensive portfolio of integrated circuits ("ICs") for data centers, enterprise networks, passive optical networks ("PON"), and wireless base station optical transceivers and high-speed interfaces ranges from 100Mbps to 400Gbps and supports key industry standards such as Fibre Channel, Infiniband, Ethernet, PON and synchronous optical networks. Our video products offer advanced solutions for next generation high-definition broadcast applications, as well as highly differentiated video-over-IP technology for professional audio video ("Pro AV") applications.

**Wireless and Sensing.** We design, develop and market a portfolio of specialized radio frequency products used in a wide variety of industrial, medical and communications applications, and specialized sensing products used in industrial and consumer applications. Our wireless products, which include our LoRa® devices and wireless radio frequency technology ("LoRa Technology"), feature industry leading and longest range industrial, scientific and medical radio, enabling a lower total cost of ownership and increased reliability in all environments. This makes these products particularly suitable for machine to machine and Internet-of-Things ("IoT") applications. Our unique sensing technology enables proximity sensing and advanced user interface solutions for our mobile and consumer products. Our wireless and sensing products can be found in a broad range of applications in the industrial, medical, and consumer markets. We also design, develop, and market power product devices that control, alter, regulate, and condition the power within electronic systems focused on the LoRa and IoT infrastructure segment. The highest volume product types within this category are switching voltage regulators, combination switching and linear regulators, smart regulators, isolated switches, and wireless charging.

**Protection.** We design, develop and market high-performance protection devices, which are often referred to as transient voltage suppressors ("TVS"). TVS devices provide protection for electronic systems where voltage spikes (called transients), such as electrostatic discharge, electrical over stress or secondary lightning surge energy, can permanently damage sensitive ICs. Our portfolio of protection solutions include filter and termination devices that are integrated with the TVS device. Our products provide robust protection while preserving signal integrity in high-speed communications, networking and video interfaces. These products also operate at very low voltage. Our protection products can be found in a broad range of applications including smart phones, LCD and organic light-emitting diode TVs and displays, set-top boxes, monitors and displays, tablets, computers, notebooks, base stations, routers, automobile and industrial instruments.

Our interim unaudited condensed consolidated balance sheets are referred to herein as the "Balance Sheets" and interim unaudited condensed consolidated statements of income are referred to herein as the "Statements of Income."

Our net sales by product line were as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Signal Integrity	\$ 61,553	\$ 58,563	\$ 193,127	\$ 163,913
Wireless and Sensing	51,145	42,287	122,933	126,190
Protection	41,384	40,161	114,384	119,408
Total	\$ 154,082	\$ 141,011	\$ 430,444	\$ 409,511

We design, develop and market a wide range of products for commercial applications, the majority of which are sold into the infrastructure, high-end consumer and industrial end markets. During the first quarter of fiscal year 2021, we reviewed the process for mapping our net sales to our end markets. This process can be challenging for the semiconductor industry due to the large number of products that can be used across multiple customer platforms and in different end markets. As a result, effective as of the beginning of the first quarter of fiscal year 2021, we combined our enterprise computing and communications end markets, which were historically presented separately, into our Infrastructure end market, which we believe better reflects actual end-market consumption. Accordingly, we now categorize our net sales into the following three end markets:

*Infrastructure:* data centers, PON, base stations, optical networks, servers, carrier networks, switches and routers, cable modems, wireless local area network ("LAN") and other communication infrastructure equipment.

*High-End Consumer:* smartphones, tablets, wearables, desktops, notebooks, and other handheld products, wireless charging, set-top boxes, digital televisions, monitors and displays, digital video recorders and other consumer equipment.

*Industrial:* IoT, analog and digital video broadcast equipment, video-over-IP solutions, automated meter reading, smart grid, wireless charging, military and aerospace, medical, security systems, automotive, industrial and home automation and other industrial equipment.

### **Impact of COVID-19**

The COVID-19 pandemic has significantly affected health and economic conditions throughout the United States and the rest of the world including Asia, where a significant percentage of our customers, suppliers, third party foundries and subcontractors are located. As a result of the pandemic, certain of our facilities and the third-party foundries and assembly and test contractors which we outsource our manufacturing functions to, have had to periodically reduce or suspend operations. The disruption experienced during such closures has resulted in reduced production of our products, delays for delivery of our products to our customers, and reduced ability to receive supplies, which have had and may continue to have an adverse effect on our results. Our customers have also experienced and may continue to or again experience, reductions or closures of their manufacturing facilities or inability to obtain other components, either of which could negatively impact demand for our products, which are incorporated into our customers' devices and solutions. We cannot assure you that such facilities will not have to reduce or suspend operations again, and such reductions or closures could extend for a longer term than the prior shutdown of such facilities, thereby causing a disruption to the manufacturing and shipping of our products.

Because a significant majority of our net sales is through authorized distributors, the financial health of our distributors is critical to our success. Our authorized distributors have experienced disruptions to their operations, including temporary reductions or closures during which they have diminished ability or are unable to sell our products. The ability of our distributors to purchase our products may be materially impacted depending on the length and severity of the pandemic, including the impact on general economic conditions. Further, if credit conditions worsen in response to the COVID-19 pandemic, our customers may ask for extension of payment terms and are more likely to default, thereby increasing risk of receivables being uncollectible.

We believe our liquidity position will allow us to withstand some of the uncertainties in the current environment. As of October 25, 2020, we had \$262.3 million of cash and cash equivalents and \$415.0 million of undrawn capacity on our credit facility. Our business is structured in a manner that is not capital intensive, which enhances our ability to preserve our overall liquidity even if conditions were to deteriorate further.

As a result of the COVID-19 pandemic, we continue to evaluate the impact on long-lived assets, such as goodwill and intangible assets for possible impairment. We did not record a goodwill impairment charge during the first nine months of fiscal year 2021. We recorded \$0.3 million and \$5.5 million of investment impairments and credit loss reserves during the three and nine months ended October 25, 2020, respectively, some of which were in part due to the impact of the COVID-19 pandemic on our investees.

Although some of the government measures implemented to reduce the spread of the virus have been lifted or scaled back, a recent resurgence of COVID-19 in the United States and some other countries has resulted in the reinstatement of restrictions and may lead to other restrictions being reinstated in a response to efforts to reduce the spread of the virus. The COVID-19 pandemic has negatively impacted our financial results for the first nine months of fiscal year 2021 compared to the same period last year by decreasing sales in the high-end consumer and industrial end markets and increasing impairments. We expect it to continue to have an adverse impact on our financial results. We believe, however, that our strong liquidity position, continued strong bookings, and a predominantly fabless business model will help us to navigate through these uncertain times.

## Factors Affecting Our Performance

Most of our sales to customers are made on the basis of individual customer purchase orders. Many customers include cancellation provisions in their purchase orders. Trends within the industry toward shorter lead-times and "just-in-time" deliveries have resulted in our reduced ability to predict future shipments. As a result, we rely on orders received and shipped within the same quarter for a significant portion of our sales. Orders received and shipped in the third quarters of fiscal years 2021 and 2020 represented 26% and 42% of net sales, respectively. Sales made directly to customers during the third quarters of fiscal years 2021 and 2020 were 18% and 24% of net sales, respectively. The remaining sales were made through independent distributors. Our business relies on foreign-based entities. Most of our outside subcontractors and suppliers, including third-party foundries that supply silicon wafers, are located in foreign countries, including China, Taiwan and Israel. For the third quarters of fiscal years 2021 and 2020, approximately 15% and 30%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in China, and approximately 4% and 10%, respectively, of the Company's silicon in terms of cost of wafers was supplied by a third-party foundry in Israel. Our concentration of wafer purchases from China has decreased as a percentage of total wafer purchases due to our strategy to diversify our supply base to improve business continuity. Foreign sales constituted approximately 90% of our net sales during the third quarters of fiscal years 2021 and 2020. Approximately 80% and 75% of sales during the third quarters of fiscal years 2021 and 2020, respectively, were to customers located in the Asia-Pacific region. The remaining foreign sales were primarily to customers in Europe, Canada, and Mexico.

We use several metrics as indicators of future potential growth. The indicators that we believe best correlate to potential future sales growth are design wins and new product releases. There are many factors that may cause a design win or new product release not to result in sales, including a customer's decision not to go to system production, a change in a customer's perspective regarding a product's value or a customer's product failing in the end market. As a result, although a design win or new product introduction is an important step towards generating future sales, it does not inevitably result in us being awarded business or receiving a purchase commitment.

We are continuing to monitor the near term geopolitical uncertainty and export restrictions on shipments to certain customers, such as Huawei Technologies Co., Ltd. ("Huawei") and certain of its affiliates. On May 15, 2020, the U.S. Department of Commerce issued an interim final rule (the final rule was issued on August 17, 2020) that amended the Export Administration Regulations ("EAR") to expand the controls on foreign-produced direct products based on certain U.S. software and technology and sold to or for Huawei, which we expect will further impact our ability to ship to Huawei, as well as certain other customers who we believe incorporate our products into their products sold to Huawei. As of the date of this report, we are unable to predict the magnitude of the impact or duration of the export restrictions imposed on Huawei and the corresponding future effects on our business. The following and above discussions reflect our current assessment of the near-term impact of these uncertainties, as well as the recent COVID-19 pandemic.

## Results of Operations

The following table sets forth, for the periods indicated, our Statements of Income expressed as a percentage of net sales.

	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Net sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of sales	39.0 %	38.8 %	38.9 %	38.4 %
<b>Gross profit</b>	<b>61.0 %</b>	<b>61.2 %</b>	<b>61.1 %</b>	<b>61.6 %</b>
<b>Operating costs and expenses:</b>				
Selling, general and administrative	27.8 %	26.8 %	26.9 %	29.3 %
Product development and engineering	18.1 %	19.1 %	19.7 %	19.5 %
Intangible amortization	1.2 %	2.7 %	1.5 %	3.1 %
Changes in the fair value of contingent earn-out obligations	— %	(0.1)%	— %	(0.6)%
Total operating costs and expenses	47.1 %	48.5 %	48.1 %	51.4 %
<b>Operating income</b>	<b>13.9 %</b>	<b>12.7 %</b>	<b>13.0 %</b>	<b>10.2 %</b>
Interest expense	(0.7)%	(1.5)%	(0.9)%	(1.8)%
Non-operating (expense) income, net	(0.2)%	0.5 %	— %	0.7 %
Investment impairments and credit loss reserves	(0.2)%	— %	(1.3)%	— %
<b>Income before taxes and equity in net gains of equity method investments</b>	<b>12.9 %</b>	<b>11.6 %</b>	<b>10.9 %</b>	<b>9.1 %</b>
Provision for income taxes	1.0 %	1.9 %	0.6 %	2.1 %
<b>Net income before equity in net gains of equity method investments</b>	<b>11.9 %</b>	<b>9.7 %</b>	<b>10.3 %</b>	<b>7.0 %</b>
Equity in net gains of equity method investments	0.1 %	0.2 %	— %	— %
<b>Net income</b>	<b>12.0 %</b>	<b>9.9 %</b>	<b>10.3 %</b>	<b>7.1 %</b>
Net loss attributable to noncontrolling interest	— %	— %	— %	— %
<b>Net income attributable to common stockholders</b>	<b>12.0 %</b>	<b>9.9 %</b>	<b>10.3 %</b>	<b>7.1 %</b>

*Percentages may not add precisely due to rounding.*

Our regional mix of income (loss) from continuing operations before taxes and equity in net gains of equity method investments was as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 25, 2020	October 27, 2019	October 25, 2020	October 27, 2019
Domestic	\$ (2,054)	\$ (1,845)	\$ (19,065)	\$ (20,907)
Foreign	21,957	18,183	65,813	58,373
Total	\$ 19,903	\$ 16,338	\$ 46,748	\$ 37,466

Domestic performance from continuing operations includes higher levels of share-based compensation compared to foreign operations.

**Comparison of the Three Months Ended October 25, 2020 and October 27, 2019**

As noted above in "Overview", we revised the end market categories for our net sales at the beginning of the first quarter of fiscal year 2021. All net sales amounts shown below for our end markets, including periods prior to the first quarter of fiscal year 2021, have been reclassified to conform to our current classification of end markets. The following table summarizes our net sales by major end market:

(in thousands)	Three Months Ended			
	October 25, 2020		October 27, 2019	
Infrastructure	\$ 58,916	39 %	\$ 54,925	39 %
High-End Consumer	45,321	29 %	38,073	27 %
Industrial	49,845	32 %	48,013	34 %
Total	\$ 154,082	100 %	\$ 141,011	100 %

**Net Sales**

Net sales for the third quarter of fiscal year 2021 were \$154.1 million, an increase of 9.3% compared to \$141.0 million for the third quarter of fiscal year 2020. During the third quarter of fiscal year 2021, we experienced strong demand across all three end markets. In our high-end consumer end market, stronger sales were driven by mobile applications such as proximity sensing products, particularly in China. Increases in our infrastructure end market were primarily driven by data center demand by cloud and hyperscale providers. The increase in our industrial end market was driven by higher LoRa enabled product sales, partially offset by lower broadcast application sales, due to the adverse impact of COVID-19 on large venue events.

Despite the ongoing COVID-19 pandemic, our bookings remained strong during the first nine months of fiscal year 2021. Based on booking trends and our backlog entering the quarter, we estimate net sales for the fourth quarter of fiscal year 2021 to be between \$153.0 million and \$163.0 million. The range of guidance reflects continued uncertainty regarding macro-related events and those associated with the COVID-19 pandemic discussed above.

**Gross Profit**

For the third quarter of fiscal year 2021, gross profit increased to \$94.1 million from \$86.2 million for the third quarter of fiscal year 2020 driven by higher net sales. Gross margins were 61.0% for the third quarter of fiscal year 2021 compared to 61.2% for the third quarter of fiscal year 2020. This decrease in gross margins was primarily due to changes in product mix. For the third quarter of fiscal year 2021, our gross margins remained within our target range. For the fourth quarter of fiscal year 2021, we expect our gross margins to be in the range of 60.5% to 61.6%.

**Operating Costs and Expenses**

(in thousands, except percentages)	Three Months Ended				Change
	October 25, 2020		October 27, 2019		
Selling, general and administrative	\$ 42,891	59 %	\$ 37,777	55 %	14 %
Product development and engineering	27,890	38 %	26,976	39 %	3 %
Intangible amortization	1,798	3 %	3,770	6 %	(52)%
Changes in the fair value of contingent earn-out obligations	—	— %	(152)	— %	100 %
Total operating costs and expenses	\$ 72,579	100 %	\$ 68,371	100 %	6 %

**Selling, General and Administrative Expenses**

Selling, general, and administrative ("SG&A") expenses increased for the third quarter of fiscal year 2021 compared to the same quarter of fiscal year 2020 primarily as a result of higher staffing related expenses, including higher supplemental compensation costs.

**Product Development and Engineering Expenses**

Product development and engineering expenses increased for the third quarter of fiscal year 2021 compared to the third quarter of fiscal year 2020 as a result of fluctuations in the timing of development activities and higher staffing related costs. The levels of product development and engineering expenses reported in a fiscal period can be significantly impacted, and therefore experience period-over-period volatility, by the number of new product tape-outs and by the timing of recoveries from non-recurring engineering services, which are typically recorded as a reduction to product development and engineering expense.

**Intangible Amortization**

Intangible amortization was \$1.8 million and \$3.8 million for the third quarters of fiscal years 2021 and 2020, respectively. This decrease was primarily due to certain finite-lived intangible assets associated with the acquisitions of Gennum Corporation, Triune Systems, L.L.C. and AptoVision Technologies, Inc. that had become fully amortized during fiscal years 2020 and 2021.

### Changes in the Fair Value of Contingent Earn-out Obligations

The change in the fair value of contingent earn-out obligations for the third quarter of fiscal year 2021 compared to the third quarter of fiscal year 2020 reflects the impact of changes in the estimated probability of achievement of earn-out targets for Cycleo SAS.

### Interest Expense

Interest expense, including amortization of debt discounts and issuance costs, was \$1.0 million and \$2.2 million for the third quarters of fiscal years 2021 and 2020, respectively. This decrease was primarily due to lower interest rates and lower overall debt levels. As a result of the interest rate swap agreement we entered into in the first quarter of fiscal year 2021, the interest rate on the first \$150.0 million of debt outstanding under our revolving credit facility, or approximately 81% of our debt outstanding as of October 25, 2020, is fixed at a rate of 1.9775%, based on our current leverage ratio.

### Investment Impairments and Credit Loss Reserves

During the third quarter of fiscal year 2021, investment impairments and credit loss reserves totaled a loss of \$0.3 million and primarily reflected adjustments to our reserve for current expected credit losses. We had no investment impairments or changes in credit loss reserves during the third quarter of fiscal year 2020.

### Provision for Income Taxes

The effective tax rates for the third quarters of fiscal years 2021 and 2020 were a provision rate of 7.9% and a provision rate of 16.1%, respectively. In the third quarter of fiscal year 2021, we recorded an income tax expense of \$1.6 million, compared to an income tax expense of \$2.7 million in the third quarter of fiscal year 2020. The effective tax rate in the third quarter of fiscal year 2021 differs from the statutory federal income tax rate of 21% primarily due to a regional mix of income, return-to-provision adjustments, excess tax benefits from share-based compensation, withholding taxes on certain foreign earnings and research and development tax credits. The effective tax rate in the third quarter of fiscal year 2020 differs from the statutory federal income tax rate of 21% primarily due to regional mix of income and the impact of final regulations on the U.S. transition tax.

As a global organization, we are subject to audit by taxing authorities in various jurisdictions. To the extent that an audit, or the closure of a statute of limitations, results in adjusting our reserves for uncertain tax positions, our effective tax rate could experience extreme volatility since any adjustment would be recorded as a discrete item in the period of adjustment.

### Comparison of the Nine Months Ended October 25, 2020 and October 27, 2019

As noted above in "Overview", we revised the end market categories for our net sales at the beginning of the first quarter of fiscal year 2021. All net sale amounts shown below for our end markets, including periods prior to the first quarter of fiscal year 2021, have been reclassified to conform to our current classification of end markets. The following table summarizes our net sales by major end market:

(in thousands, except percentages)	Nine Months Ended			
	October 25, 2020		October 27, 2019	
Infrastructure	\$ 185,083	43 %	\$ 152,490	37 %
High-End Consumer	112,507	26 %	121,134	30 %
Industrial	132,854	31 %	135,887	33 %
Total	\$ 430,444	100 %	\$ 409,511	100 %

### Net Sales

Net sales for the first nine months of fiscal year 2021 were \$430.4 million, an increase of 5.1% compared to \$409.5 million for the first nine months of fiscal year 2020. During the first nine months of fiscal year 2021, we experienced strong demand in our infrastructure end market, primarily driven by data center demand by cloud and hyperscale providers and increased 10G PON sales. These increases were partially offset by a decline in our high-end consumer end market, primarily within mobile applications and partially attributable to COVID-19 closures at certain customer sites. Our industrial end market also declined versus the prior year, primarily due to lower broadcast application sales, driven by the adverse impact of COVID-19 on large venue events. This was partially offset by higher LoRa enabled product sales.

### Gross Profit

For the first nine months of fiscal year 2021, gross profit increased to \$263.1 million from \$252.4 million for the first nine months of fiscal year 2020 as a result of higher sales. Gross margins were 61.1% for the first nine months of fiscal year 2021 compared to 61.6% for the first nine months of fiscal year 2020, reflecting a slightly unfavorable product mix.

## Operating Costs and Expenses

(in thousands, except percentages)	Nine Months Ended				Change
	October 25, 2020		October 27, 2019		
Selling, general and administrative	\$ 115,746	56 %	\$ 120,074	57 %	(4) %
Product development and engineering	84,696	41 %	80,012	38 %	6 %
Intangible amortization	6,658	3 %	12,821	6 %	(48) %
Changes in the fair value of contingent earn-out obligations	(33)	— %	(2,313)	(1) %	99 %
Total operating costs and expenses	<u>\$ 207,067</u>	<u>100 %</u>	<u>\$ 210,594</u>	<u>100 %</u>	<u>(2) %</u>

### Selling, General and Administrative Expenses

SG&A expenses decreased for the first nine months of fiscal year 2021 compared to the first nine months of fiscal year 2020 primarily as a result of lower share-based compensation expense, as well as reduced travel expenses due to COVID-19. Additionally, certain restructuring costs of \$2.1 million were recorded in the first nine months of fiscal 2020, which did not repeat in the current year.

### Product Development and Engineering Expenses

Product development and engineering expenses increased in the first nine months of fiscal year 2021 compared to the first nine months of fiscal year 2020 as a result of fluctuations in the timing of development activities and higher supplemental compensation. The levels of product development and engineering expenses reported in a fiscal period can be significantly impacted, and therefore experience period over period volatility, by the number of new product tape-outs and by the timing of recoveries from non-recurring engineering services, which are typically recorded as a reduction to product development and engineering expense.

### Intangible Amortization

Intangible amortization was \$6.7 million and \$12.8 million for the first nine months of fiscal years 2021 and 2020, respectively. This decrease was primarily due to certain finite-lived intangible assets associated with the acquisition of Gennum Corporation, Triune Systems, LLC and AptoVision Technologies, Inc. that had become fully amortized during fiscal years 2020 and 2021.

### Changes in the Fair Value of Contingent Earn-out Obligations

The change in the fair value of contingent earn-out obligations for the first nine months of fiscal year 2021 compared to the first nine months of fiscal year 2020 reflects the impact of changes in the estimated probability of achievement of earn-out targets for AptoVision Technologies, Inc. and Cycleo SAS.

### Interest Expense

Interest expense, including amortization of debt discounts and issuance costs, was \$3.8 million and \$7.2 million for the first nine months of fiscal years 2021 and 2020, respectively. This decrease was primarily due to lower interest rates and lower overall debt levels. As a result of the interest rate swap agreement we entered into in the first quarter of fiscal year 2021, the interest rate on the first \$150.0 million of debt outstanding under our revolving credit facility, or approximately 81% of our debt outstanding as of October 25, 2020, is fixed at a rate of 1.9775%, based on our current leverage ratio.

### Investment Impairments and Credit Loss Reserves

During the first nine months of fiscal year 2021, investment impairments and credit loss reserves totaled a loss of \$5.5 million. We increased our current expected credit loss reserve by \$2.7 million for our held-to-maturity debt securities and available-for-sale debt securities consisting of our convertible debt investments in privately-held companies, in part, due to the adverse impact of COVID-19 on these early-stage companies. In addition, we tested our equity investments for other-than-temporary impairment and the results of this analysis indicated that three of our investments were other than temporarily impaired by an aggregate amount of \$2.9 million. We had no investment impairments or changes in credit loss reserves during the first nine months of fiscal year 2020.

### Provision for Income Taxes

The effective tax rates for the first nine months of fiscal years 2021 and 2020 were a provision rate of 5.4% and a provision rate of 23.0%, respectively. In the first nine months of fiscal year 2021, we recorded a provision of \$2.5 million, compared to a provision of \$8.6 million in the first nine months of fiscal year 2020. The effective tax rate in the first nine months of fiscal year 2021 was lower than the effective tax rate in the first nine months of fiscal year 2020 primarily due to the impact of the final regulations of the U.S. transition tax that went into effect during fiscal year 2020. The effective tax rate in the first nine months of fiscal year 2021 differs from the statutory federal income tax rate of 21% primarily due to a regional mix of income, return-to-provision adjustments, excess tax benefits from share-based compensation, withholding taxes on certain foreign earnings and research and development tax credits. The effective tax rate in the first nine months of fiscal year 2020 differs from the statutory federal income tax rate of 21% primarily due to regional mix of income and the impact of the final regulations on the U.S. transition tax.

### **Liquidity and Capital Resources**

Our capital requirements depend on a variety of factors including, but not limited to, the rate of increase or decrease in our existing business base; the success, timing and amount of investment required to bring new products to market; sales growth or decline; potential acquisitions; the general economic environment in which we operate and our ability to generate cash flow from operations, which are more uncertain as a result of the COVID-19 pandemic and its impact on the general economy. Our liquidity needs during this uncertain time will depend on multiple factors, including our ability to continue operations and production of our products, the COVID-19 pandemic's effects on our customers, the availability of sufficient amounts of financing, and our operating performance. We believe that we have the financial resources necessary to meet business requirements for the next twelve months, including funds needed for working capital requirements.

As of October 25, 2020, our total stockholders' equity was \$676.4 million. At that date, we also had \$262.3 million in cash and cash equivalents and \$415.0 million of undrawn capacity on our Credit Facility (as defined below).

We incur significant expenditures in order to fund the development, design, and manufacture of new products. We intend to continue to focus on those areas that have shown potential for viable and profitable market opportunities, which may require additional investment in equipment and the hiring of additional design and application engineers aimed at developing new products. Certain of these expenditures, particularly the addition of design engineers, do not generate significant payback in the short-term. We plan to finance these expenditures with cash generated by our operations and our existing cash balances.

A meaningful portion of our capital resources, and the liquidity they represent, are held by our foreign subsidiaries. As of October 25, 2020, our foreign subsidiaries held approximately \$167.3 million of cash and cash equivalents, compared to \$261.9 million at January 26, 2020. In connection with the enactment of the Tax Cuts and Jobs Act, all historic and current foreign earnings are taxed in the U.S. and are subject to a 5% withholding tax, if repatriated. In fiscal year 2018, we determined that we would repatriate back to the U.S. approximately \$240.0 million of foreign earnings, which was completed in the second quarter of fiscal year 2021. In the second quarter of fiscal year 2021, we determined an additional \$50 million of current earnings will not be permanently reinvested. As of October 25, 2020, our foreign subsidiaries had \$547.9 million of unremitted earnings for which no taxes have been provided. Those historical earnings have been and are expected to continue to be permanently reinvested.

### Cash Flows

One of our primary goals is to continually improve the cash flows from our existing operating activities. Additionally, we will continue to seek to maintain and improve our existing business performance with capital expenditures and, potentially, acquisitions and other investments that support achievement of our business strategies. Acquisitions may be made for either cash or stock consideration, or a combination of both.

In summary, our cash flows for each period were as follows:

(in thousands)	Nine Months Ended	
	October 25, 2020	October 27, 2019
Net cash provided by operating activities	\$ 91,676	\$ 73,361
Net cash used in investing activities	(32,399)	(29,672)
Net cash used in financing activities	(90,330)	(72,752)
Net decrease in cash and cash equivalents	\$ (31,053)	\$ (29,063)

### Operating Activities

Net cash provided by operating activities is driven by net income adjusted for non-cash items and fluctuations in operating assets and liabilities.

Operating cash flows for the first nine months of fiscal year 2021 were favorably impacted by a 5.1% increase in net sales, compared to the first nine months of fiscal year 2020 and adversely impacted by \$11.0 million of withholding taxes paid on cash repatriated during the year. Operating cash flows for the first nine months of fiscal year 2020 were adversely impacted by \$9.3 million of cash-settled equity payments and favorably impacted by \$1.0 million of proceeds received from the settlement of the HiLight lawsuit.

#### Investing Activities

Net cash used in investing activities was primarily attributable to capital expenditures and purchases of investments, net of proceeds from sales of property, plant and equipment and proceeds from sales of investments.

Capital expenditures were \$21.8 million for the first nine months of fiscal year 2021, compared to \$20.4 million for the first nine months of fiscal year 2020. In the first nine months of fiscal years 2021 and 2020, we made significant investments to update and expand our production capabilities, including the \$4.0 million purchase of a facility in Colorado in fiscal year 2020.

In the first nine months of fiscal year 2021, we paid \$10.9 million for strategic investments, including investments in companies that are enabling the LoRa and LoRaWAN®-based ecosystem, compared to \$9.6 million of investments in the first nine months of fiscal year 2020.

#### Financing Activities

Net cash used in financing activities is primarily attributable to repurchases of outstanding common stock, payments related to employee share-based compensation payroll taxes and principal payments related to our long-term debt, offset by proceeds from stock option exercises.

In the first nine months of fiscal year 2021, we paid \$17.0 million for employee share-based compensation payroll taxes and received \$5.1 million in proceeds from the exercise of stock options, compared to payments of \$20.5 million for employee share-based compensation payroll taxes and proceeds of \$4.4 million from the exercise of stock options in the first nine months of fiscal year 2020. We do not directly control the timing of the exercise of stock options. Such exercises are independent decisions made by grantees and are influenced most directly by the stock price and the expiration dates of stock option awards. Such proceeds are difficult to forecast, resulting from several factors that are outside our control. We believe that such proceeds will remain a nominal source of cash in the future.

#### Stock Repurchase Program

We currently have in effect a stock repurchase program that was initially approved by our Board of Directors in March 2008. On May 24, 2018, our Board of Directors increased the authorization by \$250.0 million. This program represents one of our principal efforts to return value to our stockholders. We repurchased 1,527,834 shares under this program in the first nine months of fiscal year 2021 for \$66.4 million. In the first nine months of fiscal year 2020, we repurchased 925,743 shares under this program for \$42.6 million. As of October 25, 2020, the remaining authorization under this program was \$44.2 million.

#### Credit Facility

On November 7, 2019, we, with certain of our domestic subsidiaries as guarantors, entered into an amended and restated credit agreement (the "Credit Agreement") with the lenders party thereto and HSBC Bank USA, National Association, as administrative agent, swing line lender and letter of credit issuer in order to provide a more flexible borrowing structure by expanding the borrowing capacity of the revolving loans under the senior secured first lien credit facility (the "Credit Facility") to \$600.0 million, eliminating the term loans under the prior facility and extending the maturity to November 7, 2024.

In the first nine months of fiscal year 2021, we made payments that totaled \$12.0 million on our Credit Facility, compared to payments on our previous term loans that totaled \$14.1 million in the first nine months of fiscal year 2020. As of October 25, 2020, we had \$185.0 million of outstanding borrowings on our Credit Facility, which had \$415.0 million of undrawn capacity.

Interest on loans made under the Credit Facility in U.S. Dollars accrues, at our option, at a rate per annum equal to (1) the Base Rate (as defined below) plus a margin ranging from 0.25% to 1.25% depending upon our consolidated leverage ratio or (2) LIBOR (determined with respect to deposits in U.S. Dollars) for an interest period to be selected by us plus a margin ranging from 1.25% to 2.25% depending upon our consolidated leverage ratio (such margin, the "Applicable Margin"). The "Base Rate" is equal to a fluctuating rate equal to the highest of (a) the prime rate of the Administrative Agent, (b) 0.50% above the federal funds effective rate published by the Federal Reserve Bank of New York and (c) one-month LIBOR (determined with respect to deposits in U.S. Dollars), plus 1.00%.

In the first quarter of fiscal year 2021, we entered into an interest rate swap agreement with a three-year term to hedge the variability of interest payments on the first \$150.0 million of debt outstanding under our Credit Facility. As a result of the swap agreement, interest payments on the first \$150.0 million of our debt outstanding under the Credit Facility are fixed at 1.9775%, based on our current leverage ratio.

No amortization is required with respect to the revolving loans and we may voluntarily prepay borrowings at any time and from time to time, without premium or penalty, other than customary "breakage costs" and fees for LIBOR-based loans.

The Credit Agreement contains customary covenants, including limitations on our ability to, among other things, incur indebtedness, create liens on assets, engage in certain fundamental corporate changes, make investments, repurchase stock, pay dividends or make similar distributions, engage in certain affiliate transactions, or enter into agreements that restrict our ability to create liens, pay dividends or make loan repayments. In addition, we must comply with financial covenants, including maintaining a maximum consolidated leverage ratio, determined as of the last day of each fiscal quarter, of 3.50 to 1.00 or less, provided that, such maximum consolidated leverage ratio may be increased to 4.00 to 1.00 for the four consecutive fiscal quarters ending on or after the date of consummation of a permitted acquisition that constitutes a "Material Acquisition" under the Credit Agreement, subject to the satisfaction of certain conditions. As of October 25, 2020, we were in compliance with the financial covenants in our Credit Agreement.

The Credit Agreement also contains customary provisions pertaining to events of default. If any event of default occurs, the obligations under the Credit Agreement may be declared due and payable, terminated upon written notice to us and existing letters of credit may be required to be cash collateralized.

#### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements, as those arrangements are defined by the U.S. Securities and Exchange Commission ("SEC"), that are reasonably likely to have a material effect on our financial condition, revenues or expenses, operating results, liquidity, capital expenditures or capital resources.

We do not have any unconsolidated subsidiaries or affiliated entities. We have no special purpose or limited purpose entities that provide off-balance sheet financing, liquidity or market or credit risk support. We do not engage in leasing, hedging, research and development services, or other relationships that expose us to liability that is not reflected on the face of the unaudited condensed consolidated financial statements.

#### **Contractual Obligations**

There were no material changes in our contractual obligations during the first nine months of fiscal year 2021 from those disclosed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of our Annual Report on Form 10-K for the fiscal year ended January 26, 2020 filed with the SEC on March 20, 2020 (our "Annual Report").

#### **Critical Accounting Policies and Estimates**

Our critical accounting policies are disclosed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of our Annual Report. There have been no significant changes to our policies during the nine months ended October 25, 2020. For a discussion of recent accounting pronouncements, see Note 1 to our interim unaudited condensed consolidated financial statements.

#### **Available Information**

General information about us can be found on our website at [www.semtech.com](http://www.semtech.com). The information on our website is for informational purposes only and should not be relied on for investment purposes. The information on our website is not incorporated by reference into this Quarterly Report and should not be considered part of this or any other report filed with the SEC.

We make available free of charge, either by direct access on our website or by a link to the SEC website, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or as soon as reasonably practicable after such reports are electronically filed with, or furnished to, the SEC. Our reports filed with, or furnished to, the SEC are also available directly at the SEC's website at [www.sec.gov](http://www.sec.gov).

#### **ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

We are subject to a variety of market risks, including commodity risk and the risks related to foreign currency, interest rates and market performance that are discussed in Item 7A of our Annual Report. Many of the factors that can have an impact on our market risk are external to us, and so we are unable to fully predict them.

We considered the historical trends in foreign currency exchange rates and determined that it is reasonably possible that adverse changes in foreign exchange rates of 10% for all currencies could be experienced in the near-term. These reasonably possible adverse changes were applied to our total monetary assets and liabilities denominated in currencies other than our functional currency as of the third quarter of fiscal year 2021. The adverse impact these changes would have had (after taking into account balance sheet hedges only) on our income before taxes is \$0.9 million.

We are subject to interest rate risk in connection with the outstanding debt under our Credit Facility, which bears interest at variable rates as of October 25, 2020. In the first quarter of fiscal year 2021, we entered into an interest rate swap agreement with a three-year term to hedge the variability of interest payments on the first \$150.0 million of debt outstanding under our Credit Facility. As a result of the swap agreement, interest payments on the first \$150.0 million of our debt outstanding under the Credit Facility are fixed at 1.9775% based on our current leverage ratio. As of October 25, 2020, a one percentage point increase in LIBOR would not have a material impact on our interest expense as only \$35.0 million of our outstanding debt balance remains subject to a floating rate.

The Chief Executive of the U.K. Financial Conduct Authority (the "FCA"), which regulates the London Interbank Offered Rate, or LIBOR, has announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. That announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. Moreover, it is possible that LIBOR will be discontinued or modified prior to 2021. Our Credit Facility provides that, if it is publicly announced that the administrator of LIBOR has ceased or will cease to provide LIBOR, if it is publicly announced by the applicable regulatory supervisor that LIBOR is no longer representative, or if either the administrative agent or lenders holding 50% of the aggregate principal amount of our revolving commitments and term loans elect, we and the administrative agent may amend our Credit Agreement to replace LIBOR with an alternate benchmark rate. This alternative benchmark rate may include a forward-looking term rate that is based on the secured overnight financing rate, also known as SOFR, published by the Federal Reserve Bank of New York.

Interest rates also affect our return on excess cash and investments. As of October 25, 2020, we had \$262.3 million of cash and cash equivalents and \$13.1 million of investments in debt securities. A majority of our cash and cash equivalents generate interest income based on prevailing interest rates, while our debt securities primarily accrue interest at fixed rates, generally ranging between three and twelve percent. Investments and cash and cash equivalents generated interest income of \$0.5 million in the third quarter of fiscal year 2021. A significant change in interest rates would impact the amount of interest income generated from our cash and investments. It would also impact the market value of our investments.

Our investments are primarily subject to credit risk. Our investment guidelines prescribe credit quality, permissible investments, diversification, and duration restrictions. These restrictions are intended to limit risk by restricting our investments to high quality debt instruments with relatively short-term durations. Our investment strategy limits investment of new funds and maturing securities to U.S. Treasury, Federal agency securities, high quality money market funds and time deposits with our principal commercial banks. Outside of these investment guidelines, we also invest in a limited amount of debt securities in privately held companies that we view as strategic to our business. For example, many of these investments are in companies that are enabling the LoRa and LoRaWAN®-based ecosystem. We evaluate the credit risk of these investments on a quarterly basis and have recorded \$2.7 million in current expected loss reverses related to the credit risk on our debt securities investments, for the nine months ended October 25, 2020.

#### **ITEM 4. Controls and Procedures**

##### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), which are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate to allow timely decisions regarding required disclosure. Our management, with the participation of our CEO and CFO, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report. Based on that evaluation, our CEO and CFO concluded that, our disclosure controls and procedures were effective as of October 25, 2020.

##### **Changes in Internal Controls**

As of October 25, 2020, there were no changes to our internal control over financial reporting that occurred during the fiscal quarter then ended that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### ITEM 1. Legal Proceedings

Information about legal proceedings is set forth in [Note 11](#) to the interim unaudited condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

### ITEM 1A. Risk Factors

Please carefully consider and evaluate all of the information in this Quarterly Report and the risk factors set forth in our Annual Report and in our Quarterly Report on Form 10-Q for the quarter ended July 26, 2020. If any of these risks actually occur, our business could be materially harmed. If our business is harmed, the trading price of our common stock could decline.

The risk factors associated with our business have not materially changed, as compared to the risk factors disclosed in our Annual Report and in our Quarterly Report on Form 10-Q for the quarter ended July 26, 2020.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds****Recent Sales of Unregistered Securities**

None.

**Issuer Purchase of Equity Securities**

This table provides information with respect to purchases by us of shares of our common stock during the third quarter of fiscal year 2021.

Fiscal Month/Year	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Program (1)
August 2020 (07/27/20-08/23/20)	—	\$ —	—	\$ 68.2 million
September 2020 (08/24/20-09/20/20)	104,251	58.00	104,251	\$ 62.2 million
October 2020 (09/21/20-10/25/20)	335,670	53.62	335,670	\$ 44.2 million
Total activity	<u>439,921</u>	\$ 54.66	<u>439,921</u>	

(1) *The Company maintains an active stock repurchase program that was initially approved by our Board of Directors in March 2008. The stock repurchase program does not have an expiration date and our Board of Directors has authorized expansion of the program over the years. As of October 25, 2020, we have repurchased \$404.2 million in shares of our common stock under the program since inception and the current remaining authorization under our stock repurchase program is \$44.2 million. Under our stock repurchase program, we may repurchase our common stock at any time or from time to time, without prior notice, subject to market conditions and other considerations. Our repurchases may be made through Rule 10b5-1 and/or Rule 10b-18 or other trading plans, open market purchases, privately negotiated transactions, block purchases or other transactions. We intend to fund repurchases under the program from cash on hand. We have no obligation to repurchase any shares under the stock repurchase program and may suspend or discontinue it at any time.*

**ITEM 3. Defaults Upon Senior Securities**

None.

**ITEM 4. Mine Safety Disclosures**

Not applicable.

**ITEM 5. Other Information**

None.

**ITEM 6. Exhibits**

CERTIFICATION

I, Mohan R. Maheswaran, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Semtech Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
